Guide me in your truth and teach me,
for you are God my Saviour,
and my hope is in you all day long.

Psalm 25:5

Traffic Updates

I have discovered that, although we have a SatNav which I can put in our car, this particular one has to be linked to a phone so it can get traffic updates. Otherwise, although the destination is clear and programmed in, I won't know what the local traffic conditions are. This mistake cost me a lot of time on the A14 the other day!

It made me think. As Christians we absolutely know our destination and our purpose, but we have to be aware of our local context. For example, some of the initiatives we've tried as a Corps haven't worked out, and God has made it clear we need to go in a different direction, and we have to respond to that.

That's true for our personal Christian walk too, we need to ensure we're constantly in tune with God to make sure we're travelling His best path for us. Sometimes He closes a door or redirects us, but that's all part of his ultimate plan for us.
